

Bone scan

Trauma with normal x-ray

Lung

Pulmonary emboli

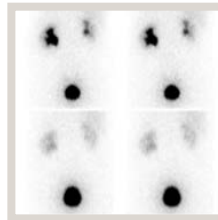

Brain

Investigation of possible dementia

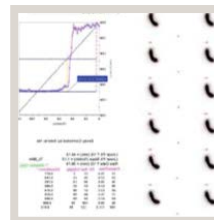

Bone scan

Stress fractures

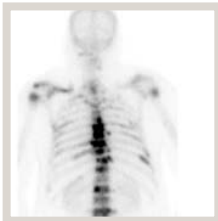

Renal

Suspected obstruction e.g PUJ
Assessment of differential renal function and scarring

Gastrointestinal - Bowel

Gastric and Colonic Transit
Inflammatory bowel disease

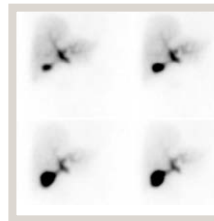

Bone scan

Malignancy - diagnosis and staging

Thyroid Scan

Hyperthyroidism

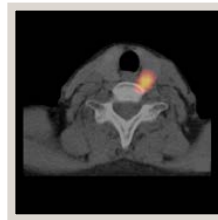

Gastrointestinal - Hepatobiliary

Acute and Chronic cholecystitis

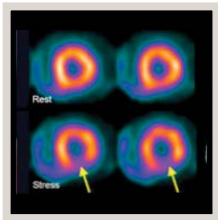

Bone scan

Assessment of degenerative change - target treatment

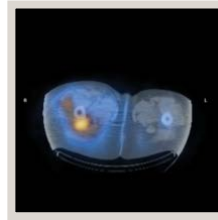

Parathyroid scan

Parathyroid adenoma

Heart

Diagnosis of Coronary Artery Disease.
Risk stratification in setting of previous CABG-stent. Preoperative evaluation

Gallium - Labeled WBC

Bone and soft tissue sepsis

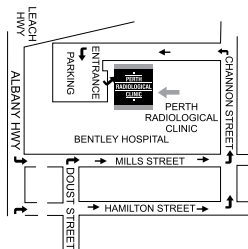

PRC Nuclear Medicine

- 9 Nuclear Medicine Physicians
 - Dr. Martin Blake
 - Dr. Geoff Groom
 - Dr. Andrew Law
 - Dr. Nelson Loh
 - Dr. Mike McCarthy
 - Dr. Andrew Patrikeos
 - Dr. Tatiana Segard
 - Dr. Teck Siew
 - Dr. Peter Swift
- Image correlation
- Secure back up of previous studies
