

Perth Radiological Clinic Bespoke Fellowship

Perth Radiological Clinic (PRC) offers the flexibility to design a bespoke, privately funded fellowship tailored to individual interests, strengths, and career goals. This 2-year contract includes a 12-month post-RANZCR qualification fellowship, followed by a 12-month consolidation period to further refine sub-specialty skills and gain additional consultant experience. The fellowship year includes 6 weeks of annual leave and 2 weeks of study leave, with a balanced structure of 3 days per week dedicated to sub-specialty training and 1-2 days per week working as a consultant in general radiology.

- The fellowship may consist of exposure to variety a of radiology sub-specialties, including (but not limited to) - dental, obstetrics and gynaecology, spinal and stroke imaging (neurology), oncology / interventional, as well as hospital emergency medicine.
- Training will be provided to develop proficiency in a wide range of modalities tailored to your career goals.
- Identification and discussion of interesting cases.
- Record of competency and proficiency will be maintained. Regular feedback on progression will be provided against expected criteria at each stage of development.

The successful applicant will be a full- or part-time (0.8 - 1 FTE) employee of PerthRadClinic Ltd, service entity to the Perth Radiological Clinic partnership, remunerated as a Fellow/Consultant for the first year and as a full consultant Radiologist post fellowship.

We offer a range of benefits including paid parental leave and other generous leave provisions, free parking, and meals provided in clinics, access to corporate discounts on health insurance and a supportive and collegiate work environment focused on you and your professional goals.
